Reference is made to memorandum of Mr. J. B. Adams to Mr. P. L. Mack dated August 19, 1975, memorandum of Mr. R. J. McCarthy to Mr. W. V. Cleveland dated August 21, 1975, and letter of Senator Frank Church to Attorney General Edward H. Levi dated September 29, 1975. *37-1-1*

The following answers are to the specific questions set out in referenced letter from Senator Frank Church to Attorney General Edward H. Levi. All entries conducted in connection with investigations handled by the Special Investigative Division from January, 1960, to July, 1975, have been for the purpose of installing electronic devices for the interception of oral communications. Surreptitious entries from 1960 to 1965 were in connection with criminal intelligence investigations of major organized crime figures. This practice was discontinued in 1965. From 1969 to July, 1975, all surreptitious entries have been under authority of court order and in accordance with Title III of the Omnibus Crime Control and Safe Streets Act of 1968. *W*

SURREPTITIOUS ENTRIES

Reference is made to your memorandum of December 2, 1975, concerning documents received by this Bureau from former Associate Deputy Attorney General James A. Wilderotter, and files pertaining to certain surreptitious entries conducted by the FBI in connection with installation of electronic surveillances.

The matter concerning materials received from Mr. Wilderotter is being coordinated with the office of the Deputy Attorney General.

With respect to files requested in Items 2 through 19 of your December 2 letter, we are taking the necessary steps to obtain the material requested, and we anticipate having these documents available for your review at an early date.

On December 2, a representative of the Intelligence Division spoke with Mr. William Gardner of your Division regarding Departmental review of two files concerning surreptitious entry. It was agreed that representatives of your office would initially confine their reviews to files located at FBI Headquarters. If satisfactory, files to be reviewed in your request of December 2 will be handled in the same fashion. If required, arrangements may be made to review files and documents requested by you which are located in our field offices. We believe these arrangements will expedite your review and will avoid, at the outset, transmittal of voluminous materials from our field offices, some of which may be irrelevant to your inquiry.

The purpose of this communication is to advise you of the results of the review made by representatives of the Inspection Division of surreptitious entries conducted by our New York Office in 1972 and 1973.

As a matter of background, the Department was previously advised that information had been uncovered indicating that some surreptitious entries had been conducted by Bureau personnel of our New York Office in 1972 and 1973. Departmental representatives personally reviewed the material maintained in our New York Office relative to this matter. Following this review, with approval of the Department, representatives of the Bureau's Inspection Division proceeded to New York for a similar review. As requested by the Department, no pertinent interviews were conducted in connection with the Inspection Division's inquiry.

As the Department is aware, there is maintained in the New York Office a four-drawer file cabinet physically located in the Personnel Files Unit. The top drawer contains twenty-seven volumes covering surreptitious entries by New York from 1954 to the last recorded entry, April 16, 1973. SAC Folder 25 contained nine memoranda disclosing nine surreptitious entries, seven in 1972 and two in 1973. Departmental representatives, while in New York, obtained Xerox copies of these memoranda.

For your information, in addition to the above nine, a review of pertinent files disclosed seven additional entries and two other possible entries. Of the additional seven, three took place in 1972 and four in 1973, with the last recorded date being April 18, 1973. The two other possible entries occurred in the latter part of 1972.

NOTE: Based on memo H. N. Bassett to Mr. Callahan captioned "Surreptitious Entries" dated 5/11/76, wherein it was recommended, and approved by the Director, that the Department be advised of the pertinent results of Inspection Division's inquiry regarding captioned matter.

In the second drawer of the above-referred-to file cabinet additional material pertaining to surreptitious entries was also located and specific reference is made to SAC Folder (C). It is the Bureau's understanding that Xerox copies of the top six serials of this folder were made available to Departmental representatives while in New York. In essence, this folder deals almost exclusively with obtaining keys from various sources, with the possible intended purpose of utilizing them for surreptitious entries. During the Inspection Division's review of this particular material it was ascertained that sometime in the latter part of 1973 an inventory was made of the Tel-Kee cabinet.

On 5/25/76 at the request of Assistant Attorney General Pottinger a meeting took place between Mr. Pottinger, Mr. Kelley, Bill Gardner, Chief of the Criminal Section of the Civil Rights Division, and me. The purpose of the meeting was to determine how to proceed with the investigation of surreptitious entries which occurred within the statute of limitations. Mr. Pottinger advised there were 15 or 20 such incidents which have been discovered to date as a result of FBI and Departmental review. This number represents the number of entries and does not represent the number of separate targets, these being fewer in number.

Prior to submitting any recommendation to the Attorney General, Mr. Pottinger wished to propose to Mr. Kelley the following procedure. He feels that the basic investigation should be conducted by FBI Agents who would work closely with attorneys of the Civil Rights Division who would direct the lines of inquiry and on occasion participate in investigative interviews.

Mr. Pottinger felt that in order to facilitate the prompt completion of these inquiries and avoid the possibility of premature leaks, normal reporting channels should be avoided and the results of investigative activity should be furnished to the Civil Rights Division and to Mr. Kelley and me.

RECEIVED 11/2/66

Mr. Kelley suggested Mr. Pottinger contact Mr. Dowd of the Department who is supervising the U. S. Recording investigation for his views as to how the Ash group is functioning. Mr. Kelley pointed out that coordination of the investigative activity was desirable and a responsible Bureau official should be placed in charge of the FBI Agents conducting the investigation. That group could in turn report to me and I could keep Mr. Kelley informed as he did not think it would be necessary for him to

Memorandum for Mr. Callahan
Re: SURREPTITIOUS ENTRIES INVOLVING
DOMESTIC TARGETS

see personally all of the FD-302s and other results of investigative activity. Mr. Pottinger indicated he would give consideration to that.

Other alternatives were discussed such as having the Secret Service or some other agency provide the investigative agents or have Departmental attorneys conduct the entire investigation; however, it was tentatively agreed that it would be best to have the FBI Agents conduct the investigation.

Mr. Pottinger raised several potential problem areas. One was the fact that once active inquiries begin there was the potential of news leaks and these should be avoided if at all possible. Mr. Pottinger was very pleased that thus far the news media are unaware that there are surreptitious entries which have been determined to have taken place within the statute of limitations. It was agreed that since the matter was a pending investigative matter no announcement of this fact should be made and inquiries should be responded to by the Department as long as possible by merely stating that the matter was under investigation.

A discussion was had as to whether the Church Committee should be advised that surreptitious entries took place within the statute of limitations or whether it would be more appropriate to notify the new Senate Oversight Committee and the Eastland Committee of this fact. Mr. Pottinger indicated that he wanted to give further thought to this matter before reaching a conclusion.

It was agreed that current case law indicated that the proper manner of proceeding would be to advise the affected agents of their rights as well as of the fact that their choosing to exercise their rights would not be used against them administratively. Those Agents choosing to exercise their rights against self incrimination could then be advised, after a determination is made by the Departmental attorneys involved, that they are being granted use immunity or transactional immunity and, therefore, must answer questions posed by the investigator. His failure to answer questions after having been granted immunity would subject him to a charge of insubordination which could result in his dismissal.

Memorandum for Mr. Callahan
Re: SURREPTITIOUS ENTRIES INVOLVING
DOMESTIC TARGETS

The question of legal representation was discussed and it was Mr. Pottinger's feeling that those Agents desiring legal representation should be provided private-counsel at Government expense. This matter would have to be resolved with the Civil Division, however, before a final determination could be made. A more troublesome area was discussed which is the situation where an indictment might be returned at which time a conflict of interest might require the Government to cease providing counsel or funds for private counsel. This answer would likewise have to be resolved should such a situation develop.

Mr. Pottinger suggested that a memorandum be sent to all offices cautioning that appropriate files and records should be maintained to insure no hindrance to the inquiry. Such a communication will be submitted for approval.

Mr. Pottinger advised that the purpose of the inquiry would also be to determine if there are any other cases of surreptitious entries taking place in the domestic field within the past five years unrelated to approved electronic surveillances, and he was advised that we had canvassed all SACs, Section Chiefs and above in this regard. Mr. Kelley advised Mr. Pottinger that he was most interested in getting this matter resolved once and for all and had been in the process of issuing instructions to have each Agent on the rolls asked as to whether he has any personal knowledge of such matters. Mr. Pottinger advised that he would prepare a proposed question in this regard and then would get together with us to review our proposed questionnaire to determine exactly the type of inquiry to be made of each Agent.

Mr. Pottinger felt that approximately ten Agents would be needed to complete these investigations. He suggested that he be furnished the names of 15 or 20 possible candidates from which group he would select the ten to be utilized. He requested that the Agents selected not ever have had service in New York, Washington Field, or Domestic Intelligence Division, nor should they ever have been engaged in surreptitious entries in the domestic field at any time other than in connection with approved electronic surveillances. He indicated that at the time of selection by him

Memorandum for Mr. Callahan
Re: SURREPTITIOUS ENTRIES INVOLVING

he would secure an affidavit from them to this fact. Mr. Pottinger also requested assurance that the Agents involved in the investigations would suffer no adverse effect on their career, and in this connection suggested that it would be desirable to have individuals selected who are

**INVESTIGATION OF
SURREPTITIOUS ENTRIES**

On Friday, May 28, 1976, William J. Gardner, of your division, requested that we submit to you our views concerning the procedures to be followed in conducting investigations of surreptitious entries which occurred within the statute of limitations. This memorandum will confirm our conference on May 25, 1976, in which I advised that in conducting an investigation of this nature it would be necessary for us to advise those employees who would appear to be suspects of their constitutional rights by furnishing them the Miranda warnings and requesting of them a waiver of their rights. Further, we would advise such employees that there would be no administrative penalty applicable to them if they exercise their constitutional rights in declining to answer questions where to do so would result in self-incrimination. In the event an employee exercised the privilege against self-incrimination and it appeared to the Department to be desirable to grant immunity from prosecution, the Department would determine the nature and scope of the immunity to be granted.

Thereafter, upon notification in writing of the immunity granted, employees would be required to respond to appropriate inquiries within the bounds of the immunity granted or face appropriate administrative action.

FBI Team to Bypass Kelley

By John M. Goshko
 Washington Post Staff Writer

FBI Director Clarence M. Kelley has agreed to allow his agents, investigating allegations of burglaries by burglary team, to bypass him and other FBI executives and report their findings directly to the Justice Department.

Kelley also admitted yesterday that he was wrong when he said last year that FBI burglaries against suspected domestic subversives had been terminated in 1969. The bureau, he said, had uncovered information about break-ins committed by FBI agents in 1972 and 1973, and these burglaries are the sub-

ject of the current investigation.

His statement came after the Associated Press reported that a special team of 12 FBI agents, assigned to the probe, had been instructed not to give their investigative reports to Kelley or other bureau officials.

The AP report quoted Assistant Attorney General J. Stanley Pottinger, whose Civil Rights Division is in charge of the inquiry, to issue a statement saying reports that "Kelley has been sealed off from all aspects of this investigation are wrong."

Mr. Kelley has taken the unusual step of detailing a

group of FBI agents to assist the Civil Rights Division in this investigation, and they report only to my investigative staff and to me, not through FBI channels," Pottinger confirmed.

"Nevertheless," he added, "Mr. Kelley and I have felt free to consult each other personally as we have found it necessary and appropriate. . . . Whatever information is shared with him remains in his personal knowledge and possession only and is not disseminated to other persons in the FBI or elsewhere."

Pottinger did not elaborate further. However, it

was learned that the arrangement between the FBI and the Justice Department, which has policy control over the bureau, was set up partially to ensure the appearance of impartiality in the probe.

Kelley, it was learned, is not under any suspicion of complicity in wrongdoing by the bureau. Nor is there any feeling at the Justice Department that he would not conduct a thorough investigation of the burglaries had he remained in charge.

But, it was felt by Justice officials that because the investigation might involve former or present high-ranking FBI officials, the probe should be controlled from outside the FBI. Kelley is understood to have agreed and to have assisted in setting up the procedure under which the FBI investigators report directly to Pottinger and his staff.

The investigation, which came to light last week, centers on allegations that FBI agents carried out burglaries at the homes or offices of suspected domestic subversives during the past five years. It is not known how many break-ins took place or how many agents were involved, but the probe so far has centered on the New York field office.

In his statement yesterday, Kelley recalled that he had said, during a July, 1975, press conference, that the late FBI Director J. Edgar Hoover had terminated all burglaries by bureau personnel relating to the domestic security field in 1966.

In making that statement, Kelley said he had relied on a memorandum written by Hoover in 1966 "and upon the recollections of current headquarters personnel."

"On March 17, 1976," he continued, "FBI headquarters learned as a result of inquiries in connection with a pending lawsuit that folders in our New York office contained information concerning entries subsequent to 1966 and the Department of Justice was notified the same day by us."

The resulting investigation was turned over to Pottinger's division because it involves possible criminal charges that FBI men violated the civil rights of citizens through the burglaries.

"It was through this means," Kelley continued, "that I learned of the existence of a limited number of surreptitious entries conducted in 1972 and 1973 . . . The FBI under my direction is cooperating with the Department of Justice in a full and complete investigation to determine all the facts of this matter."

During 1972 and 1973, the FBI was headed by four men: Hoover, who died in May, 1972; L. Patrick Gray, who was acting director until April, 1973; William D. Ruckelshaus, who succeeded Gray as acting director until July, 1973, and Kelley, who was sworn in as director on July 9, 1973.

FBI sources said last night that all of the burglaries alleged to be Kelley's started at took place before he became director.

By Margaret Gentry
 Associated Press

The Justice Department has blocked FBI Director Clarence M. Kelley from receiving investigative reports probe of FBI burglaries, according to a knowledgeable source. The department official in charge of the investigation has hand-picked an of 12 FBI agents to do much of the legwork in the case, this source, others familiar with the developments said yesterday. The agents' reports may have been sent to Kelley and one of his top assistants, James Adams, early in the investigation, the sources said. But when changed on orders from department officials and agents no longer are allowed to report their findings to Kelley or Adams, the source said.

IT IS UNUSUAL for the FBI director to be kept off from reports of own agents even in investigations involving alleged FBI wrongdoing. It is not being determined why department officials took such action. But the probe is being conducted in even greater secrecy than usual and few department officials have been told of the details.

The investigation centers on allegations that FBI agents carried out burglaries at the homes of officers of Congress during the last five years.

It is not known how many burglaries might be involved.

Sources said the investigation involves possible criminal charges that some men violated the civil rights of others in the break-ins.

THE DEPARTMENT probe is under the over-all direction of Asst. Atty. Gen. J. Stanley Pottinger, head of the civil rights division.

"I've seen Stan shake his head in dismay at what they've found," a department official remarked.

In a development related to the case, Asst. FBI Director Andrew DeLoach has hired a well-known Washington attorney, Edward Bennett Rios, to represent him, sources said.

DeLoach was assigned to lead the office and security matters for the department before Kelley appointed him as assistant director for the communications division in 1971. He is now in charge of the records division.

One source familiar with the case said Kelley is concerned that the burglary investigation raises doubts about his credibility and control of the bureau.

KELLEY HAS insisted for the past year that FBI burglaries against domestic targets ended in 1966, long before he took office in 1973.

But the department now is investigating burglaries conducted since

1971. Published reports have indicated that some of the burglaries took place after Kelley took office.

If the burglaries were conducted without Kelley's knowledge -- and there's no publicly available evidence to the contrary -- that raises questions about the strength of the director's leadership.

The FBI release comment.

One target of the post-1971 burglaries was the Honorable Earl Warren, a former U.S. Supreme Court Justice previously mentioned in a report that agents conducted the burglaries against the party from 1967 through 1973.

ADAMSON, 60, is chief of the civil rights division, a federal position, directly controls the department's investigation.

Sources said DeLoach himself picked the 12 agents doing the legwork on the case, and the agents report directly to him.

The agents "were carefully selected so as not to have any conflicts of interest," one source said. The agents have never worked in the intelligence field and have never been assigned to the FBI field offices involved in the investigation, the source added.

The New York field office is a prime focus of the investigation but others are involved, sources have said.

Enclosed is one copy each of Director, FBI, teletype dated June 15, 1976, directed to all Special Agents in Charge; of Director, FBI, teletype dated June 17, 1976, directed to the Special Agents in Charge of the Albany and New York Offices; and of Director, FBI, airtel dated June 21, 1976, directed to the Special Agent in Charge of our New York City Office, it being noted the first two are captioned as above and the latter is captioned "Document Classification Matter."

These communications are being sent to the Civil Rights Division at the specific request of Department Attorney William Gardner. Copies are enclosed for the other Assistant Attorneys General as they have an interest in this matter as it relates to the protection of classified information in accordance with Executive Order 11652, National Security Council directives and Title 28, Code of Federal Regulations, Part 17 (28 CFR 17).

On June 17, 1976, Special Agent [REDACTED] the FBI Document Classification Officer (who serves as this Bureau's Security Officer in accordance with 28 CFR 17), referred to the Department Review Committee (DRC) this Bureau's concern that classified information, including that involving intelligence sources and methods, could be jeopardized as a result of this inquiry. It was indicated to the DRC that counsel retained by Special Agents who are subjects of the investigation could request and receive from the Attorney General access to receive information classified up to "Top Secret." Thus the Bureau and the Department are confronted with the possibility many requests may be made to the Attorney General by counsel to Special Agents who are subjects of this investigation for clearance for access to national security information to enable them to

It was also suggested to the DRC, as this matter could have far-reaching ramifications as relates to the intelligence community, consideration be given to its referral to the Interagency Classification Review Committee.

Instructions set forth in the enclosed teletype dated June 17, 1976, were agreed to on June 17, 1976, by Deputy Assistant Attorney General Leon Ulman, Office of Legal Counsel, who serves as Chairman of the DRC, and by Deputy Assistant Attorney General Robert Keuch of the Criminal Division who is a member of the DRC. A copy of this communication is being sent to the Director, Security and Administrative Programs Staff, Office of Management and Finance, of the Department, it being noted he serves as the Security Officer for the Department and also is a member of the DRC.

~~BLACK-BAG JOBS~~ CO-AUTHORED BY ROBERT L. JACKSON AND RONALD J.
MOTRON, WHICH SET FORTH THAT THE LOS ANGELES TIMES HAD LEARNED
OF INSTANT INVESTIGATION. THIS ARTICLE WAS EXTREMELY DETAILED
AND ACCURATE AND OBVIOUSLY REPRESENTS AN UNAUTHORIZED DISCLOSURE
OF INFORMATION FROM A GOVERNMENT EMPLOYER SOURCE. THIS DISCLOSURE
IN THE MEDIA REPRESENTS THE FIRST INSTANCE OF WIDESPREAD PUBLICITY
OF CAPTIONED MATTER. THIS PUBLICITY DOES NOT BENEFIT THE
SUBSTANCE OF THE INVESTIGATION. THE PROBABILITY OF FURTHER
DISCLOSURES IS APPARENT. THE POSSIBILITY OF THE REVEAL OF SPECIFIC
SUBJECTS BEING INVOLVED IS A DISTINCT POSSIBILITY. IN SUCH
A DISCLOSURE SITUATION, EACH INDIVIDUAL COULD BE EXPOSED TO
CIVIL SUITS BY INDIVIDUAL PLAINTIFFS, AS WELL AS ONE THAT
WOULD BE AT LOCAL GOVERNMENT LEVEL.

IN VIEW OF THE ABOVE, THE FOLLOWING ACTIONS BY FBIHQ ARE
WARRANTED AND BEING REQUESTED:

- (1) AN IMMEDIATE INVESTIGATION PROBING THE UNAUTHORIZED

DISCLOSURE OF CONFIDENTIAL GOVERNMENT INFORMATION. IT IS POINTED OUT THAT THE UNAUTHORIZED DISCLOSURE THAT THIS INVESTIGATION IS BEING CONDUCTED COULD BE A VIOLATION OF FEDERAL REGULATIONS AND STATUTES. FURTHERMORE, IF CLASSIFIED INFORMATION HAS BEEN LEAKED, THE GRAVITY OF THE VIOLATION IS INCREASED. UNQUESTIONABLY, THERE IS AT LEAST A SUFFICIENT BASIS FOR INSTITUTING THIS INVESTIGATION IMMEDIATELY.

(2) IMMEDIATE DETERMINATION BY FBIHQ AS TO WHICH INDIVIDUALS WITHIN THE FBI AND USDO HAVE BEEN AFFORDED THE OPPORTUNITY TO REVIEW THOSE BASIC DOCUMENTS CONTAINED IN PERSONAL SAC FOLDER 25 MAINTAINED IN THE NEW YORK DIVISION OF FBI; COPIES OF THESE DOCUMENTS INCLUDED IN THIS FOLDER WERE RECENTLY FURNISHED TO SPANISH AMERICAN ATTORNEYS. IN ADDITION, AN IMMEDIATE DETERMINATION AS TO THE IDENTITIES OF ANY SPECIFIC INDIVIDUALS WHO ARE IN POSSESSION OF COPIES OF THESE DOCUMENTS SHOULD BE MADE AND CONTINUALLY UPDATED. STRICT CONTROL OF THESE POTENTIALLY INCRIMINATING DOCUMENTS IS DESIRED SINCE THE UNAUTHORIZED DISCLOSURE AND TRANSFER OF THESE DOCUMENTS WOULD IRREVOCABLY PREJUDICE AND DAMAGE THE INDIVIDUAL RIGHTS OF THE AFOREMENTIONED SUBJECTS OF CAPTIONED

INVESTIGATION...

ADDITIONALLY, DEPARTMENTAL ATTORNEYS WILLIAM L. GARDNER AND STEVEN HOAR WERE PERMITTED TO REVIEW MANY FBI FILES AND DOCUMENTS IN POSSESSION OF NYO DURING THE PERIOD APRIL 26 THROUGH APRIL 30, 1976, IN CONJUNCTION WITH INSTANT INVESTIGATION. IN ADDITION TO BEING FURNISHED COPIES OF CERTAIN DOCUMENTS, THESE ATTORNEYS MADE EXTENSIVE NOTES DURING THEIR REVIEW OF RELATED DOCUMENTS IN ORGANIZATIONAL AND INDIVIDUAL CASE FILES. THESE NOTES TAKEN FROM REVIEW OF LHM's, AIRTELS, MEMORANDA, REPORTS AND ANY OTHER DOCUMENTS OR SERIALS WHICH CONSTITUTE CLASSIFIED MATERIAL, SHOULD IN THEMSELVES BE CLASSIFIED. THEREFORE, REQUEST SHOULD BE DIRECTED TO THE DEPARTMENT TO APPROPRIATELY CLASSIFY THOSE NOTES TAKEN BY ABOVE DEPARTMENTAL ATTORNEYS.

SUCH A DETERMINATION ALSO APPEARS IN ORDER IN VIEW OF THE REQUESTS MADE IN BUREAU AIRTEL TO NEW YORK, DATED JUNE 21, 1976, CAPTIONED "DOCUMENT CLASSIFICATION MATTER," BUREAU FILE 62-116055, WHICH CONCERNED ITSELF WITH CLASSIFYING DOCUMENTS PERTAINING TO SURREPTITIOUS ENTRY.

Special Agents of our New York Office who have been notified by the Department of Justice that they are considered to be potential subjects in this investigation have expressed concern about the apparent disclosures of the investigation to representatives of the new media. They cite a "New York Post" article which appeared in the final edition June 22, 1976, on page 20 co-authored by Robert L. Jackson and Ronald J. Ostrow which they felt was extremely detailed and accurate. They pointed out this was the first instance of widespread publicity in this matter and believed such publicity did not benefit the subjects of the investigation. They are concerned about further disclosures and the possibility that the names of specific subjects will be divulged which could expose them to civil suits by independent plaintiffs as well as criminal proceedings on a local level. These Agents asked for an immediate investigation probing the disclosures of information relating to this matter and they feel that the unauthorized disclosure concerning the investigation being conducted could be a violation of Federal regulations and statutes.

No investigation has been conducted by the FBI concerning these disclosures but I did want you to be aware of the concern of the Agents involved in this investigation. It is requested that you advise whether or not such an investigation should be undertaken.

Our New York Office also observed that Departmental attorneys William L. the attorneys made extensive notes from a review of the files provided to them. A determination is presently being made regarding the national security classification, if any, of the documents furnished and you will be advised of the results of this determination. The New York Office is also concerned about notes containing classified information taken from classified documents during the above-mentioned reviews and asked that such notes constituting classified material be appropriately classified. It is, therefore, requested that any notes requiring classification be handled accordingly.

Summary of the above

Within the past several days news stories have indicated that surreptitious entries were conducted by the FBI within the past five years and that I have previously stated and testified before the Congress that surreptitious entries in domestic security investigations terminated in 1966. Obviously, such news stories imply directly or indirectly that I (1) knew otherwise, and/or (2) that my advisers in the FBI knew about these entries and failed to advise me of them.

I would like to state at this time that when I spoke initially at a July, 1975, press conference and stated that there were no entries in the domestic security area after 1966, I knew of none. I have certainly never authorized any, and frankly, I was never told of any. I was speaking with the best knowledge that was furnished me at the time. My press conference statement relied upon a July, 1966, memorandum wherein Mr. Hoover instructed that no further surreptitious entries were to be engaged in by Bureau personnel. In addition, I relied upon the recollections of current Headquarters personnel who were queried about this matter prior to this conference.

Subsequent to my press conference and as a result of our reviews in responding to Congressional and Departmental inquiries relating to surreptitious entries, additional entries were detected and furnished to the Department and the Senate Select Committee in September, 1975. We reported that at least 238 surreptitious entries had been conducted against at least 14 domestic subversive targets during the period 1942 to April, 1968, and there were additional entries which we were then unable to document.

On March 17, 1976, FBI Headquarters learned as a result of inquiries in connection with a pending lawsuit that folders in our New York Office contained information concerning entries subsequent to 1966 and the Department of Justice was notified the same date by us. It was through this means that I learned of the existence of a limited number of surreptitious entries conducted in 1972 and 1973 after a thorough review was subsequently made of these folders.

The FBI, under my direction, is cooperating with the Department of Justice in a full and complete investigation to determine all the facts of this matter.

By memorandum dated June 25, 1976, J. Stanley Pottinger, Assistant Attorney General, Civil Rights Division, in connection with the Department's Surreptitious Entry Investigation requested the FBI to take whatever steps are necessary to enable agents to confer with counsel in light of provisions of Title 28, Code of Federal Regulations (CFR), Part 17, regarding the nondisclosure of classified information to unauthorized persons. This Bureau subsequently communicated with the Office of the Deputy Attorney General which, in coordinating this matter, requested name checks.

To date we are aware of the identities of three attorneys retained as counsel by agents involved with this investigation, namely [REDACTED] and [REDACTED]. The results of name checks concerning these individuals have been forwarded to the Office of the Deputy Attorney General.*

The CFR cited by Assistant Attorney General Pottinger provides no person shall be given access to any classified information or material under control of the Department unless such person has been determined to be trustworthy and unless access to such information or material is necessary in the performance of his duties. The trustworthiness determination, referred to as a security clearance, is required to be made by the Security Officer of the Department and to be based on such investigation as the Department by regulation requires in accordance with Executive Order 10450, as amended. In this instance it would appear a clearance for up to and including "top secret" information is required. Our practice has been to conduct a full field background investigation in instances of this type when requested by the Department. In the event an individual whose latest full field background investigation is five years or older, an update investigation is required. Any clearance, of course, is granted by the Security Officer of the Department based on the results of the investigation. The CFR further provides that no classified information or material shall be disseminated outside the Executive Branch unless authorized by you.

In reference to comments in Mr. Pottinger's memorandum regarding communications initiated at FBI headquarters, these were made in accordance with CFR as relate to Executive Order 11652 and were issued after the Department Review Committee which has responsibility for administering the regulations concurred in the need to protect classified information. The instructions relating to the protection of classified information were sent to the field in support of the CFR and, unless advised specifically by you, we will continue to insure that such classified national security information in custody of this Bureau is afforded protection as required by the Executive Order and CFR.

Enclosed for your information is a copy of the FBI Employment Agreement (FD-391), which form is executed by all employees of the FBI. The provisions of this agreement are applicable both during the period of employment and following termination of employment with the FBI.

This agreement states in part, "I understand the need for this secrecy agreement; therefore, as consideration for employment I agree that I will never divulge, publish, or reveal either by word or conduct, or by other means disclose to any unauthorized recipient without official written authorization by the Director of the FBI or his delegate, any information from the investigatory files of the FBI or any information relating to material contained in the files, or disclose any information or produce any material acquired as a part of the performance of my official duties or because of my official status."

I have been made aware that some Special Agents of the FBI have been contacted by the Civil Rights Division and advised that they are considered potential subjects of this investigation; however, I do not know if these individuals represent all of the present or former FBI employees who are considered to be potential subjects. In order that I may initiate appropriate action to release present and former employees from the provisions of the employment agreement so that consultation with private counsel can be facilitated, it would be most helpful if I could be advised of the identities of those present and former employees who have been informed by the Civil Rights Division that they are potential subjects of this investigation. Additionally, it would be of assistance if I could also be advised following notification by the Civil Rights Division of any future subjects.

**Assistant Attorney General
Civil Rights Division**

It is my intention to have our Legal Counsel Division telephonically notify the individuals involved that they have been released from their employment agreement for the purpose of discussing this matter with their counsel subject to the resolution of the question regarding discussions of National Security Classified Information with their attorneys. In addition, those individuals who are current employees will be instructed to review FBI Headquarters teletype to all offices dated June 15, 1976, captioned Civil Rights Division, Criminal Investigation of Surreptitious Entries, a copy of which is enclosed, which encourages subjects of the investigation to cooperate but sets forth information concerning their constitutional rights against self-incrimination.

NOTE: On 7-6-76 William Gardner of the Civil Rights Division requested to have a copy of the FBI Employment Agreement as well as information as to what we intended to advise the potential subjects of this investigation prior to rendering a decision as to whether or not the Civil Rights Division would advise FBI of the identities of subjects of this investigation.

EMPLOYMENT AGREEMENT

As consideration for employment in the Federal Bureau of Investigation (FBI), United States Department of Justice, and as a condition for continued employment, I hereby declare that I intend to be governed by and I will comply with the following provisions:

(1) That I am hereby advised and I understand that Federal law such as Title 18, United States Code, Sections 793, 794, and 798; Order of the President of the United States (Executive Order 11652); and regulations issued by the Attorney General of the United States (28 Code of Federal Regulations, Sections 16.21 through 16.26) prohibit loss, misuse, or unauthorized disclosure or production of national security information, other classified information and other nonclassified information in the files of the FBI;

(2) I understand that unauthorized disclosure of information in the files of the FBI or information I may acquire as an employee of the FBI could result in impairment of national security, place human life in jeopardy, or result in the denial of due process to a person or persons who are subjects of an FBI investigation, or prevent the FBI from effectively discharging its responsibilities. I understand the need for this secrecy agreement; therefore, as consideration for employment I agree that I will never divulge, publish, or reveal either by word or conduct, or by other means disclose to any unauthorized recipient without official written authorization by the Director of the FBI or his delegate, any information from the investigatory files of the FBI or any information relating to material contained in the files, or disclose any information or produce any material acquired as a part of the performance of my official duties or because of my official status. The burden is on me to determine, prior to disclosure, whether information may be disclosed and in this regard I agree to request approval of the Director of the FBI in each such instance by presenting the full text of my proposed disclosure in writing to the Director of the FBI at least thirty (30) days prior to disclosure. I understand that this agreement is not intended to apply to information which has been placed in the public domain or to prevent me from writing or speaking about the FBI but it is intended to prevent disclosure of information where disclosure would be contrary to law, regulation or public policy. I agree the Director of the FBI is in a better position than I to make that determination;

(3) I agree that all information acquired by me in connection with my official duties with the FBI and all official material to which I have access remains the property of the United States of America, and I will surrender upon demand by the Director of the FBI or his delegate, or upon separation from the FBI, any material relating to such information or property in my possession;

(4) That I understand unauthorized disclosure may be a violation of Federal law and prosecuted as a criminal offense and in addition to this agreement may be enforced by means of an injunction or other civil remedy.

I accept the above provisions as conditions for my employment and continued employment in the FBI. I agree to comply with these provisions both during my employment in the FBI and following termination of such employment.

TO : Mr. Walsh

FROM : R. E. Long

SUBJECT: SURREPTITIOUS ENTRY INVESTIGATION

DATE: 7/7/76

*ALL (6/16)
G/10*

PURPOSE:

To request four additional stenographers and one additional clerk for the Surreptitious Entry Investigation.

DETAILS:

The number of Special Agent personnel assigned to the Surreptitious Entry Investigation has been increased from 13 to 23. This increase in Agent personnel requires an increase in stenographic and clerical personnel. In order to handle the large volume of expedite reports which are requested by the Department of Justice, it is felt that four additional stenographers and one additional clerk are needed. This will bring our stenographic complement to eight and our clerical complement to four.

RECOMMENDATION:

That four additional stenographers and one clerk be selected for assignment to this detail and to report for work at 9:00 a.m., on July 12, 1976, to Room 6240.

MEMORANDUM FOR MR. JENKINS

Re: To be discussed at Associate
Director's Conference this date

I mentioned my distress to you last week.

I mention it again and with force because of a comment reportedly made by Ed Miller over the weekend. It appears he feels that I possibly was informed of the burglaries given wide coverage in the last few days. Admittedly the account indicates the notice was oblique and that I may not have recognized its relevancy. In other words, I chose to ignore its implications or I was unable to distinguish its inferences for an unknown reason. Ed Miller has not explained what he meant, and I therefore, must believe he was correctly quoted and can only speculate what he meant.

Lest there be any question in anyone's mind about my position in this matter, I want to set out certain things.

Until March, 1976, I had never been informed of these domestic surreptitious entries which took place in recent years, have not authorized a single such act, and know of no inferential, obscure, of otherwise "back door" reference to the existence of such or, on the other hand, unsolicited and solicited comments from knowledgeable Bureau authorities to the effect there was none were made on numerous occasions.

It appears my denial of burglaries of recent vintage were made with the knowledge by some FBI employees that I spoke in error. No one stepped forward to advise me of my error. I am inclined to believe there may be an effort to shift the responsibility for these allegations in some manner despite my total absence of any notification. I have never shunned responsibility properly vested in me. I will, however, where there is a purpose of evading culpability or a desire to share it by unfair innuendoes. Such an effort is totally unfair and I will vigorously resist it. I sincerely hope my fears are ill-founded.

Memorandum for Mr. Jenkins

July 12, 1976

Some reports are current that I have not acted decisively in a time of disquiet. Pending investigations have to date seemed to me to be an adequate base from which to determine needed action, be it corrective, disciplinary, or prosecutive. This is as it should be and, under normal circumstances, would be allowed to take its proper course.

I sincerely believe normalcy has been supplanted by factors which indicate the necessity to move now if credibility is to be maintained and divisiveness stilled. By no means do I feel the movement I detect is one universally supported. Unfortunately, some adjustments may inadvertently affect a wider range of my associates than I might want.

The action I contemplate at this point is as follows:

1. I want anyone who has any information of matters under question to come forward and let me know of them. This does not include anyone already named by the Department as a possible subject of their investigation, nor am I insisting anyone waive his constitutional rights.
2. I want to be informed at once of any reports currently circulating that I supposedly was informed of these actions and I want to be informed of the source.
3. I want you to discuss the problem I have presented and give me your appraisal of what you think should be done. This I want by July 12, 1976. I am considering some myself.

As I have said on several occasions, the position which I wish to maintain if we are to maintain credibility is one of complete absence of any duplicity or evasiveness and it now appears that this has been made difficult by factors beyond my command. I therefore think that we must move and move swiftly. This action may include an effort to join the news media in explanations or whatever may be determined as our best course. We cannot sit around and wait for the cleaver to fall. We must do something now.

Very truly yours,

Clarence M. Kelley
Director
